Dr. Keating called the meeting to order at 2:35 p.m. She presented the New Principles for Effective Assessment of Student Achievement that was adopted by HLC on July 19, 2013. After the presentation, there was discussion between those present on ways we can improve our assessment process for each division. The process SIC uses has streamlined in order to make it easier for those involved but we need to make sure we are collecting the information we need. The main goal is Institutional Effectiveness.

The presentation will be emailed to those present so they can share with their divisions and use as a reference guide. It will also be posted on Intrinsic.

Dr. Keating closed the meeting at 3:09 p.m.
